

## Parks and Recreation Master Plan

### District of West Kelowna

The District of West Kelowna (District) is a newly incorporated municipality (2007) located in the Regional District of Central Okanagan (RDCO) on the western shores of Lake Okanagan. As a new municipality, the District of West Kelowna is undertaking planning to ensure the future of the community meets the expectations and aspirations of its residents.

One of those plans is the Parks & Recreation Master Plan completed in 2010. It provides overall direction and guidance for managing parks and recreation facilities, resources, programs, infrastructure and investment over a horizon of 10 years. A main goal of this plan was to consult with the community – the public, stakeholders, staff and council – to form an accurate understanding of what the priorities are for parks and recreation in the District of West Kelowna.
